

PATRONUS
PARTNERS LTD

Funding your Patronus Account

It is very important when you fund your account to add the reference of your account number. Without this, funds may be delayed in getting to your account.

Your Broker will know **your account number** and should have already told you.

It will take the format of **"2167"**

Followed by **3 letters and then 3 numbers**

And then **3 letters** illustrating which type of account it is eg. GIA, ISA etc.

For example **"2167SMI091-GIA"**

You will need to electronically transfer funds into your account from the account that you put on your application forms.

Anti-money laundering regulations make it impossible for us to accept funds from any other bank account.

For GBP accounts send the money to:

Barclays Bank Plc

Account Name - Global Prime Partners Limited

Sort Code - 20-00-00

Account Number - 23218015

Reference - your account number

For EUR or USD accounts, please contact your Broker for details of how to fund your account.
