• Your annual billing period is 4 Sep 2021 - 9 Sep 2022.

About your payment

We want to make sure you're paying the right amount for your energy so that you don't need to make any extra payments when your billing plan ends. If you signed up to a fixed price tariff, the price you pay for each unit of energy won't change until that product ends. Your monthly payments will change if the amount of energy you use goes up or down.

How we calculated your new monthly payments of £211.00

- 1.We looked at your payments and how much energy you're using.
- 2.We worked out you'll spend £1,266.00 on energy from now until your next bill on or around 9 Sep 2022.

Please check our estimates against your readings if it is safe and practical to do so.

 This bill is based on more than one estimated reading. Please check that you're not paying too much or too little for your energy by reading your meter. You can supply this to us at edfenergy.com or calling our automated system on 0333 200 5108.

#### Frequently asked questions How do we work out your Direct Debit?

Page 4 of 4

We work out your Direct Debit by including any past balance and also account for typical UK weather patterns. That way, any unusual weather last year doesn't mean you're paying too much or too little this year. The aim is to help you smooth your payments over the year as much as possible.
