Allocation of payments

If you do not pay off the full amount outstanding, we will allocate your payment to the outstanding balance by applying it to pay off transactions starting with those charging the highest rate of interest followed by the next highest rate and so on down to the lowest rate. If your payment isn't enough to pay off all transactions at a particular interest rate, the order of payment will be: cash advances; purchases; money transfers; balance transfers; and default sums. The way in which payments are allocated can make a significant difference to the amount of interest you will pay until the balance is cleared completely.

Minimum payments

If you make only the minimum payment each month, it will take you longer and cost you more to clear your balance.

If you are unable to make the minimum payment, please contact us as soon as possible on 08085 40 50 60.
