Additional Information

GENERAL INFORMATION ABOUT YOUR GAS SUPPLY

Understanding how we work out your gas bill

Please follow the easy steps below:

- 1) Take the previous meter reading from the present reading.
- 2) Multiply the figure by 2.83 to give the number of cubic metres of gas supplied. (This step is not needed if you have a metric meter)
- 3) Multiply the figure by the Volume Correction Factor and then by the Calorific Value both shown on the front of this bill.
- 4) Divide the figure by 3.6 to give the number of kilowatt hours (kWh).
- 5) This is then multiplied by the price per kWh (shown on the front of this bill) to give the gas charge.

Your bill is the gas charge + CCL + VAT (if applicable).

Your contract may include a Daily Standing Charge. If so, the standing charge shown will be the daily rate agreed multiplied by the number of days in the month (or pro rata if your supply either started or ended during the month).

Volume Correction Factor

We adjust the volume of gas recorded by your meter to take account of standard temperature and pressure conditions. We are required to do this by our Supplier Licence.

Calorific Value

The Calorific Value is the energy content of gas. National Grid tells us the calorific value of gas supplied in your area. We are required to use the average Calorific Value over the period of your bill by our Supplier Licence.

Office Hours

Our offices are open from 9.00am to 5.30pm Monday to Thursday and 9.00am to 5.00pm on Friday.

Gas Escapes

National Grid operates a 24-hour emergency service. If you smell gas or think you have a gas leak, contact them immediately on 0800 111 999.

Vacating Premises

On vacating the premises please contact the office on 01423 502554 to inform us of your closing meter reading. Unfortunately if you don't you may be responsible for gas charges used up to:

- The next actual meter reading taken by our meter reading agency.
- When the new customer requires a supply

Whichever comes first.

We would also where possible require the name of the new occupant.

Meter Readings

Unless your meter is monthly read our meter-reading agency read your meter twice a year. If you require a more accurate bill during this period customers are welcome to email their reading to meterreadings@cngltd.co.uk during the last few working days of the month or call us during office hours.

Alternatively, you can visit our website www.cngltd.co.uk and follow the links to 'Submit a Meter Reading'. Whichever method you choose, please remember to include your Account Reference.
