

- your taxable pension will
 - ▶ be paid each month from 18 April 2024 until you die
 - ▶ be paid for 5 years from the date it's first paid even if you die before the end of this 5 year period
 - ▶ not increase
 - ▶ not be paid to any dependant on your death
- no Lifetime allowance* or additional tax charges will apply

 You can choose to take your taxable pension from a different date as long as you're above your minimum retirement age.

3 What will be paid in

▶ We have assumed no more payments will be made

4 Your funds - what you need to know

This table shows important details about the funds you've chosen. The assumed growth rate varies depending on the investment mix of each fund.

Remember - funds showing higher growth rates might be more likely to beat inflation* but they may also be more likely to lose money.
