Hi Gina, we have a smaller invoice that needs paying fairly urgently for a current small job on the NatWest Building. Quote is for around £2k but they've asked for £500 for materials which they've bought and are on site.

With these smaller invoices Paul (cc'd) and myself have in the past just processed the entire amount through one SSAS and then balanced who's owing what via our invoice tracker. Is there any chance this could be processed by RC in one go today and we'll then reconcile when final invoice comes through?

I've set-up payment just in case that's ok

Thanks

Matt
