Your annual mortgage statement is here

Dear Member(s),

All the facts and figures you need

Your 2015 annual mortgage statement is enclosed. It shows all the payments you've made for the year, the interest you've paid, any charges added to your account and your remaining mortgage balance. We've also enclosed a handy guide to explain each section of your statement.

What's next for your mortgage?

One or more of your accounts is on our Standard Mortgage Rate (SMR). With our SMR, you're free to switch to a new deal at any time, so we're pleased to give you some options to consider:

If you choose to switch to a new deal with us, we offer existing mortgage customers like
you the best rates on the high street¹.

We know they're the best, because with our Loyalty Rate Mortgages initiative we do the shopping around for you. We check the remortgage rates of the top six high street lenders every week – and then we beat them. We've enclosed a leaflet which tells you more.

If you'd prefer to stay on our SMR, you don't need to do anything. Our SMR gives you
flexibility, such as the option to make unlimited overpayments. However, in many cases
we could offer you a lower rate than the SMR. You could switch to a tracker rate mortgage
if you prefer the flexibility of a variable rate or you may prefer a fixed rate mortgage for
the added security of fixed monthly payments.

Please turn over...

Your electricity account number:

18446 24319

Please get in touch if you have any questions about your summary.

Summary date: 15 October 2015

Supply address: Sherril Tetbury Hill Gardens Malmesbury Wiltshire SN169JP

Dear Mr M Sparrow

Your annual electricity summary

For the period: 14 October 2014 to 13 October 2015

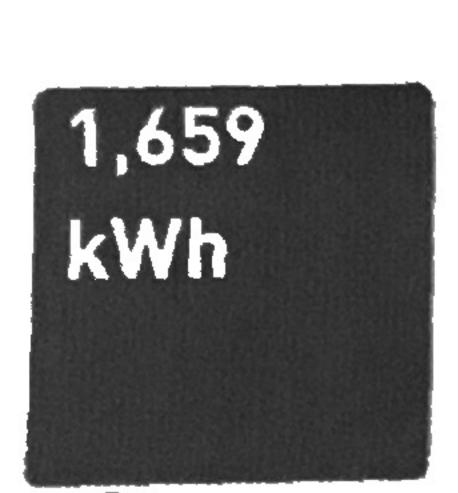

This is important information about your electricity usage and tariff. It is not a request for payment but lets you see how much electricity you've been using. You can also use it to see how your tariff compares with others that are available. Please keep this summary for your records and let us know if we can help further.

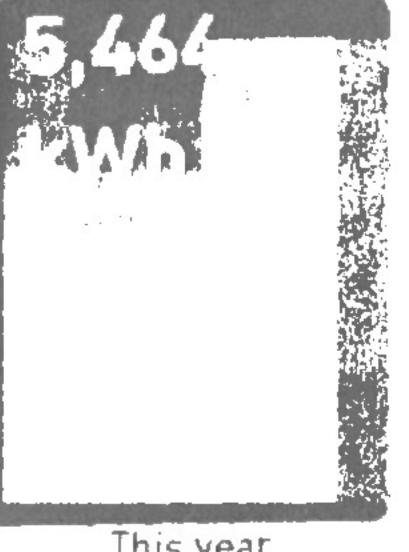

Remember - it might be worth thinking about switching your tariff or supplier.

Your electricity usage summary

We've worked out that this year you used 5,464.75 kWh.

This is based on actual readings.

Previous year

This year

Your total estimated costs were £956.18.

Based on our best estimate of your annual usage and your current prices, we estimate you will spend £293.54 in the next 12 months. This is your Personal Projection and includes VAT and any discounts.

Prices may increase in future. If the price of your tariff changes, or you change your tariff or the amount you use, the forecast will also change.

Could you pay less?

Our cheapest similar tariff

200

Good news - you're already on our cheapest evergreen tariff. We'll let you know at least once a year if this changes.

Our cheapest overall tariff

By switching to SSE 1 Year Fixed v2 (subject to eligibility criteria and limited availability) paying by Direct Debit and choosing paperless billing, you could save...

£16.35 a year.

Please note that switching tariffs may involve changing to different terms and conditions, so always check first.
