This Energy Price Guarantee has already been applied to your bill, and you do not need to take any further action.

Gas emergency

Smell gas or think there might be a gas leak?

Call 0800 111 999 (24hrs)

In the event you can smell gas, immediately turn off the gas at the meter control valve.

Also ensure you do not expose the gas to any heat or flames. That means no smoking or lighting matches! Where possible you should also open any doors and windows to allow the gas to ventilate.

Electricity supply faults

If you have problems with your electricity supply and you have already checked you haven't blown a fuse, call 105

Before going to the Ombudsman, you need to have given us an opportunity to resolve the issue first. Following this review, we are legally required to comply with their decision.

*Explaining your gas usage

Not all gas is created equal. We convert gas units from your meter into kWh to make sure the energy output of your gas is priced consistently. We do this using the following formula:

Meter units used	100
Volume conversion factor	x 1.00
Metric units	= 100
Volume correction	x 1.02264
Calorific value	x 39.0
Convert to kWh	÷ 3.6
Energy used	1107.9 kWh
