UK authorised Unit Trusts and OEICs	30/06/2021	78520	Quilter Investors Creation Moderate Portfolio Acc -U2	40,542.7000	0.00	257.93
				Total	0.00	738.32

Notes

- The Consolidated Tax Certificate (CTC) is a summary of the income you have been paid and the tax that has been deducted from your income. If you receive any overseas dividends, it also shows the overseas tax you have paid and net income received (after tax has been deducted). All overseas payments will be detailed in the enclosed documentation on either the Foreign Dividend Distribution Schedule, or Foreign Interest Distribution schedule.
- The report also contains details of accumulations in respect of UK authorised unit trusts and OEICs. For tax purposes, accumulations are considered as income. In relation to offshore funds, please see below.
- Distributions by investment funds are usually one of two types - dividends, or interest, depending on the asset make-up of the fund concerned.
- Before 6 April 2016, all dividend income, including unit trust and OEIC dividend income, whether from a UK or an overseas fund, carried a non-repayable tax credit of one-ninth of the net dividend (assuming, in relation to overseas companies, that you do not own more than 10%). After 6 April 2016, UK taxpayers are liable to tax on any dividends received above the tax-free dividend allowance of £2,000 are taxed at the following rates: 7.5% for basic rate taxpayers, 32.5% for higher rate taxpayers and 38.1% for additional rate taxpayers. As the tax credit no longer applies, this figure will show £0.00 after this date.
- Interest earned on cash holdings and rebates received from fund managers are paid net of 20% income tax deducted at source. Interest distributions are paid gross by fund managers. If you're a UK taxpayer, you may have to pay tax on interest earned in excess of your personal allowances. Please note, it is your responsibility to make sure that any tax due on income earned within your account is paid to the appropriate tax authority. Please note, it is your responsibility to make sure that any tax due on interest payments is paid to the appropriate tax authority.
- 'Group 2 units' means fund units newly bought. They may make up only part of your holding. Equalisation represents accrued income included in the price of units (Group 2 units) bought during a distribution period. For UK Funds, where Equalisation is actually paid (with a first distribution, on distribution shares), it should be deducted from the cost of the units for CGT purposes and is not subject to Income Tax. After their first distribution, Group 2 units become categorised automatically as Group 1 units.
- Shares and units in Offshore Funds are subject to a special UK tax regime. For more information, please visit www.hmrc.gov.uk/manuals/ofmanual/.
- A scrip dividend is when a company offers a dividend, but gives shareholders the option of receiving it in the form of extra shares, instead of cash. Scrip dividends on UK companies are subject to Income Tax. Scrip dividends for non-UK resident companies, however, are treated as a reorganisation, with no immediate Income Tax or Capital Gains Tax (CGT) consequences.
- Whether income is paid to you gross, or under the deduction of income tax, or with a tax credit, you may have a liability (or an additional liability) to tax, depending on your personal circumstances.
- Any income you may have had from assets and balances held within Individual Savings Accounts (ISAs) has not been included on the CTC or the schedules, as you do not have to pay tax on it.

Quilter

11. HMRC accepts this certificate as evidence of the income that you have received, and the tax you have paid. Depending on your individual circumstances, you may have more tax to pay. You can use these figures to help with the completion of your tax return. Where applicable you should also tell HMRC about any capital gains or losses, with details of how you have calculated them.
